Legionella Testing

MTS-B102109 PRO Biofilm single test – Single Use

Our comprehensive and sensitive Legionella swab test is designed for testing surfaces and biofilm. The process involves collecting a sample through swabbing areas where biofilm accumulates e.g. shower heads, taps, storage tanks, pipework and the water edge of pools or hot tubs.

Sensitivity: 200 CFU per swabbed area

Shelf Life: 18 months from date of manufacture

Test Time: 25 minutes

Tests Included: 1

Detects: Legionella pneumophila serogroups 1-15

MTS-B101825 Ultra Legionella Water Test- Single Use

Our most sensitive Legionella testing solution for detecting Legionella pneumophila serogroup 1 only. Serogroup 1 is responsible for around 90% of Legionnaires' disease outbreaks across the world. An easy-to-use test that can be carried out by anyone in any setting, giving results in just 25 minutes. It requires minimal training and includes visual instructions which provide a simple step by step guide.

Sensitivity: 100 CFU per swabbed area

Shelf Life: 18 months from date of manufacture

Test Time: 25 minutes

Tests Included: 1

Detects: Legionella pneumophila serogroup 1

MTS-B100100 Ultra Legionella Industrial Kit (5)

This Legionella test kit is ideal where repeated sampling of the same water outlet is required. It can detect ≥ 100 CFU/L and is our most sensitive multi-test kit for detecting Legionella pneumophila serogroup 1 (sg1), the cause of around 90% of Legionnaires' disease.

Simply attach our outlet adaptor and leave it in place ready for the next scheduled testing according to your water management program.

Sensitivity: 100 CFU per swabbed area

Shelf Life: 18 months from date of manufacture

Test Time: 25 minutes

Tests Included: 5

Detects: Legionella pneumophila serogroup 1
